Beyond the
Beauty...

Beyond the beauty...

**Getting a grip on architecture:
It's in your hands.**

Andishe Top Isfahan Co., Has been established for give service to the Iranian industry on 1999. This company has started producing diferent industrial pieces from industrial robots, polish and polisher. Professional molding in the field of fastening (door handles) producing die-cast molds including hot and cold chamber, the production of robotic products and packs. This company has been coined a new brand named: TIKHANDLE © on 2015 that almost all of the best international quality. In fact the purpose of Andishe Top Isfahan Co, is producing high quality and updated products with the mostinexpensive price to offer. We are hopeful that our company could have share in the development of our Iran!

We growing our design excellence, we have never ceased refining our manufacturing processes either: an ongoing policy of modernizing and optimizing production technologies and routines has colluded with our predilection for “feisty” materials like finegrade steel, aluminium, brass, ZAMAK and bronze to ensure our products last far longer than ought to be to our liking from a business economics point of view.

Publishers with a sideline in door handles

We again took our future into our own hands in the 2000's. Under the intellectual guidance oaf designers, we subjected our activities to critical analysis and in the process came up with a series of guiding principles that are still valid today. A fundamentally new design culture was born that, as well as addressing itself to the company's origins and tradition, is also rooted in the cultural history of handles in particular and the concept of holding things in general. Mr. Aicher devised his “Four-Point Guide to Good Grip, for us, which states that any good handle will feature a thumb rest, a forefinger furrow, support for the palm, and sufficient gripping bulk. As an outcrop of the process of critical analysis and reorientation was the edition of books that now are part of the standard repertoire of some college design programs.

Names wanted (but not for dropping)

Our legendary Door Handles Workshop held in 2015 at our facility in Isfahan, Iran. was attended by celebrities sent out quite a shock wave.

Even those who had previously managed to grasp the world without TIKHANDLE were soon cognizant with the workshop findings. Overnight, a product that had long been considered of little interest was turned into a design theme by one of the first "name design" projects. Architects and designers now started to apply lock designs to support their creative visions.

It all started with cabinet fittings

TIKHANDLE were exceedingly modern at the time and our founder was good at catering to prevailing trends: by the turn of the century his product offering already filled a handy catalogue. the proud TIKHANDLE brand was born. Then as now, a key focus of its trade concerned classic hardware for doors and windows.

TERMS & CONDITIONS

Prices

Please note that all list prices given in this guide are in US dollars.

Freight

Tehran, Iran

Terms

Payment in full required within 30 days.

Acknowledgements

When TIKHANDLE receives an order an "Order Acknowledgment" is issued to the customer which details the order and gives the expected shipment date. Please check the items and pricing on the acknowledgement thoroughly to ensure accuracy.

Returns

Provided goods are in saleable condition, TIKHANDLE accepts returns of stock items for a restocking charge of 45% with a \$ 75.00 minimum.

Please contact TIKHANDLE in writing for a "Return Goods Authorization" (RGA). Goods are only credited if a customer has been issued a RGA and the goods are received in saleable condition. Once the goods are received, TIK will issue a credit memo, which can be applied to your next payment.

If the items are not returned within 45 days, the RGA is voided. Custom special order products are not returnable.

Order Cancellations

TIK will do our best to accommodate order changes and or cancellations prior to production. Orders in production cannot be modified or cancelled.

Product Warranties and Liability

There is a \$ 75 minimum order requirement. Orders for parts will be allowed below the minimum order size but will be invoiced at full list price. No discount will apply.

Standard Discount

Standard discount is 5% off current published list price. All parts are sold at standard discount regardless of customer buying program.

Product Warranties and Liability

1. All goods sold are warranted to be free from defects in material and workmanship, the foregoing comprise seller's sole and entire warranty provided:

a) The Company has been notified within the time frame from the purchase date from TIKHANDLE as listed under "Term" in the chart below, and been given the opportunity of inspection by return of any alleged defective Product to the Company, free and clear of all liens and encumbrances, transportation prepaid, accompanied by the statement of defects and proof of purchase: and

b) The Product has not been modified, abused, misused, or improperly installed, maintained and/or repaired during such period. All other warranties, written or oral, expressed or implied, and including but not limited to warranties of merchantability or fitness for intended purpose, are expressly excluded.

2. Seller's sole obligation under these warranties, during the period after date of manufacture as listed below, shall be to issue credit, repair or replace any item or part thereof, which is proved to be other than as warranted. Seller shall have the sole right to determine whether such parts shall be repaired or replaced or whether credit shall be issued. No allowances shall be made for any labor charges for replacement of parts, adjustments or repairs, or any other work.

In no event shall seller be liable for collateral or consequential damages.

3. We do not warrant against defects caused by improper installation nor against the consequences of uses for which our products were not designed, especially if an TIK lever handle is used with a non TIK component part such as a mortise lock or tubular latch other than recommended.

Our warranty shall only apply if, and to the extent that the purchaser can show that the TIKHANDLE Product itself was defective and the defect was not related to alteration or to adverse effects of such use with a non TIK Product or components.

4. If goods are claimed to be other than as warranted, seller, upon notice promptly given, will either examine the goods at the buyer's site or issue shipping instructions for return to seller (transportation costs prepaid by buyer). These warranties shall not extend to any goods or parts thereof which have been subjected to misuse or neglect, damage by accident, rendered defective by reason of improper installation or by the performance of repairs, modifications or attachment to other products outside of seller's plant.

Care/Cleaning

Stainless steel needs to be cleaned for aesthetic considerations and to preserve corrosion resistance. Stainless steel is protected from corrosion by a thin layer of chromium oxide. Oxygen from the atmosphere combines with the chromium in the stainless steel to form this passive chromium oxide film that protects from further corrosion. Any contamination of the surface by dirt, or other material, hinders this passivation process and traps corrosive agents, reducing corrosion protection. Thus, some form of routine cleaning is necessary to preserve the appearance and integrity of the surface.

Stainless steel surfaces thrive with frequent cleaning because there is no surface coating to wear off. A soft cloth and clean warm water should always be the first choice for mild stains, loose dirt and soil. For more aggressive cleaning, a small amount of vinegar can be added to warm water. A final rinse with clean water and a dry wipe will complete the process and eliminate the possibility of water spots. Cleaning with solutions containing chlorine, such as acetone, methyl alcohol, and mineral spirits must be avoided. Brass and Bronze are both copper alloys (Brass is copper and zinc, Bronze is copper and tin) and when exposed to air and moisture, they will develop a greenish layer of build-up on its surface called patina. While this darkened finish does add character to the brass and bronze, some consider it unsightly, and would prefer their bronze to look clean and shiny. To clean the patina, rinse the brass or bronze

with warm water and dry thoroughly to remove dust and particles. Mix two tablespoons of baking soda and a teaspoon of lemon juice until a soft paste forms. Wearing rubber gloves apply the paste with a polishing cloth and rub in small circular motions and repeat until the desired effect is reached. Let sit for 20 to 30 minutes and then rinse with thoroughly with warm water to remove the paste. Buff dry with clean towel. If patina still remains repeat process. Cleaning with solutions containing chlorine, such as acetone, methyl alcohol, and mineral spirits must be avoided.

Aluminum is the earth's most abundant metal element and is used for a wide array of applications ranging from aircraft skins to baseball bats. Anodizing provides aluminum a very durable, corrosion resistant, and long lasting finish. To clean, squeeze one or two drops of mild dish washing detergent into a cup of water. Apply the soapy water to a sponge and scrub the aluminum surface vigorously. Rinse the anodized aluminum surface with clean water and then dry it with towels. Cleaning with solutions containing harsh acidic or alkaline cleaners as they may destroy your finish and should be avoided.

Ordering Guidelines

To place an order direct with TIKHANDLE please email: orderdesk@tikhandle.com

You can also watch a video on how to create an TIK Ordering String on our YouTube Channel.

Watch the video by clicking on this link or typing this into your web-browser: tikhandle.com/orderdesk

When ordering locksets such as an KEYS door handles you will use a numbering string as shown in our example below.

Example: Standard Keys Lock – K

Materials & Finishes

TIKHANDLE Hardware is available in nine (9) finishes from our three series of door furniture: Modern, Classic, Luxury.

We invite you to contact us if you have special color requirements.

Our finishes are listed on next page showing the base material and the color code for natural, anodized, and plated finishes.

On the following pages the finish illustrations are close approximations of the actual finish.

TIKHANDLE offers physical finish samples should you require this for your decision-making process.

RESEARCH

Throughout two decades TIKHANDLE has built a heritage of handcraftsmanship and precious abilities still used today, feeling confident about, feeling confident about the future with the same spirit of the very first day.

This is the power that drives the company to reach higher, to produce new high tech models and to accept new challenges.

All along the producing chain, no matter if forging, polishing or branding, the power of experience and the courage of ambition give birth to a product, which is much more than a simple furnishing accessory: it is a philosophy, a business idea, a way of conceiving work.

The style of TIKHANDLE. he future with the same spirit of the very first day.

This is the power that drives the company to reach higher, to produce new high tech models and to accept new challenges.

All along the producing chain, no matter if forging, polishing or branding, the power of experience and the courage of ambition give birth to a product, which is much more than a simple furnishing accessory: it is a philosophy, a business idea, a way of conceiving work. The style of TIKHANDLE.

Warranties

TIKHANDLE, thanks to the high-quality of the materials and the new technologies in production, gives a special warranty on its products.

Warranty terms have been extended, departing from the date of purchase, according to the finishes as follows:

- Stainless Steel: 8 Years;
- ZAMAK: 8 Years
- Brass: 10 Years.
- Aluminium: 4 Years.

Warranty provides, at discretion of Central Office, the repair or the replacement of defective product free of charge, during warranty period.

Should any product become discontinued, Central Office reserves the right to replace it with similar product or to refund original purchase cost. Determination of causes, responsibilities and presence of manufacturing defects will be at discretion of sole TIKHANDLE. Dispatch cost for this evaluation will be at purchaser charge.

Once verified Central Office TIKHANDLE responsibility and warranty terms compliance, other costs as additional material dispatch and its return back to client, will be at Central Office charge. TIKHANDLE will not be liable in any case of installation, repair and replacement costs as of loss or damages.

TIKHANDLE

Since 1999

Catalogues and products are subject to improvements.

Colors and pictures in the catalogue are not binding and may slightly differ if compared with the true product since they are obtained by a printing process.

Possible differences between ready-made product and its representation cannot cause any complaint, since the purchase order is the only binding reference document.

Models are trade-marks registered.
